Re: U.S. EPA Approval of the Former Plainwell Impoundment Time-Critical
Removal Action Design Report

Dear Ms. Barnett:

U.S. EPA Region 5 has reviewed and approves the Former Plainwell Impoundment Time-Critical Removal Action Design Report, dated February 13, 2007 ("Design Report"), which was submitted by ARCADIS G&M of Michigan, Inc. on behalf of Millennium Holdings, LLC ("MHLLC") and the Georgia-Pacific Corporation ("Georgia-Pacific"). The Design Report describes response work that will be performed by MHLLC and GP under the terms of a proposed administrative settlement agreement and consent order for the performance of a time-critical removal action at the Plainwell Impoundment area of the Allied Paper/Portage Creek/Kalamazoo River Superfund Site. The Design Report will be an enforceable exhibit to that agreement.

Sincerely yours,
